**A.V. Chayanov on the Theory of Peasant Economy** Aleksandr Vasil'evich Chai□a□nov 1986

Theme and Rheme Alvin Leong Ping 2004 This book argues for the inclusion of a cognitive psychological component in the analysis of theme and rheme, the basic building blocks of the message structure of language. The inference-boundary (IB) model is presented and justified as an explanatory model of the message structure of the clause and, above it, the text. It views theme as an element that is capable of generating a boundary of acceptability within which it is permissible for the rheme to occur. It explains why and how an initial element is considered to be thematic. The IB model also acknowledges the operation of a principle - the principle of acceptable message development - that underlies all that we say and write. This principle forms the basis of a simple test to identify and delimit the thematic portion.

**Action Research into Teaching English in Russia's Professional Context** Natalia A. Gunina 2015-10-13 This book is a result of the investigative attempts of linguistics professionals to identify and meet the challenges of developing communicative competence in future engineers, economists and other such specialists. The unifying feature of all the contributions brought together here is the active involvement of the authors in practical instruction of English for specific professional purposes at the tertiary (bachelors' and masters' programs) level in Russia. This volume covers a number of relevant areas in this field, including new developments in methodology, approaches to course and

materials design, and the contribution of language theory to foreign language teaching in a professional context. The unique teaching approach advocated in this book denounces the traditional practice of transferring classical methodology of communicative-oriented teaching to language classes for students with a non-linguistic or non-teaching professional orientation. The underlying idea of this volume is that a change in professional context implies a change in language teaching methodology, including materials, techniques and target competences. The ideas and experiences analysed here will appeal to anyone interested in the current trends in foreign language teaching and learning and particularly to educationalists.

**Europa. Rozprawa historyka z historią. Część 3** Norman Davies 2020-03-30 "Europa. Rozprawa historyka z historią to prawdziwe opus magnum Normana Daviesa. Od czasu ukazania się w październiku 1996 ten opasty tom przekroczył już nakład 150 tysięcy egzemplarzy, spotykając się z superlatywami, ale także wywołując ożywione dyskusje i kontrowersje. Europa fascynuje czytelników, którzy znajdą w niej znane już walory pisarstwa Daviesa - literacki temperament, rozległość zainteresowań, osobisty stosunek do tematu. Walory tej wspaniałej książki sprawiają, że mimo jej objętości czyta się ją jednym tchem. "

*Literary Scholarship in Late Imperial Russia* Andy Byford

2007 The turn of the twentieth century was a decisive moment in the institutionalisation of Russia's literary scholarship. This is the first book in the English language to provide an in-depth analysis of the emergence of Russia's literary academia in the pre-Revolutionary era. In particular, Byford examines the rhetoric of self-representation of major academic establishments devoted to literary study, the canonisation of exemplary literary historians and philologists (Buslaev, Grot, Veselovskii, Potebnia, Ovsianiko-Kulikovskii), and attempts by Russian literary academics of this era to define their work as a distinct form of scholarship (nauka). By analysing a range of academic rituals, from celebrations of institutional anniversaries to professors inaugural lectures, and by dissecting the discourse of scholars' obituaries, commemorative speeches and manuals in scholarly methodology, Byford reveals how the identity of literary studies as a discipline was constructed in Russia. He provides not only a unique insight into fin-de-siecle Russian literary scholarship, but also an original approach to academic institutionalisation more widely.

Life Histories of Ethnos Theory in Russia and Beyond

David G. Anderson 2019-02-25 The idea of ethnos came into being over a hundred years ago as a way of understanding the collective identities of people with a common language and shared traditions. In the twentieth

century, the concept came to be associated with Soviet state-building, and it fell sharply out of favour. Yet outside the academy, ethnos-style arguments not only persist, but are a vibrant part of regional anthropological traditions. *Life Histories of Ethnos Theory in Russia and Beyond* makes a powerful argument for reconsidering the importance of ethnos in our understanding of ethnicity and national identity across Eurasia. The collection brings to life a rich archive of previously unpublished letters, fieldnotes, and photographic collections of the theory's early proponents. Using contemporary fieldwork and case studies, the volume shows how the ideas of these ethnographers continue to impact and shape identities in various regional theatres from Ukraine to the Russian North to the Manchurian steppes of what is now China. Through writing a life history of these collectivist concepts, the contributors to this volume unveil a world where the assumptions of liberal individualism do not hold. In doing so, they demonstrate how notions of belonging are not fleeting but persistent, multi-generational, and bio-social. This collection is essential reading for anyone interested in Russian and Chinese area studies. It will also appeal to historians and students of anthropology and ethnography more generally.
