Archives in Russia: A Directory and Bibliographic Guide to Holdings in Moscow and St.Petersburg Patricia Kennedy Grimsted 2016-04-01 This is a comprehensive directory and bibliographic guide to Russian archives and manuscript repositories in the capital cities of Moscow and St. Petersburg. It is an essential resource for any researcher interested in Russian sources for topics in diplomatic, military, and church history; art; dance; film; literature; science; ethnography; and geography. The first part lists general bibliographies of

relevant reference literature, directories, bibliographic works, and specialized subject-related sources. In the following sections of the directory, archival listings are grouped in institutional categories. Coverage includes federal, ministerial, agency, presidential, local, university, Academy of Sciences, organizational, library, and museum holdings. Individual entries include the name of the repository (in Russian and English), basic information on location, staffing, institutional history, holdings, access, and finding aids. More comprehensive and up-to-date than the 1997 Russian Version, this edition includes Web-site information, dozens of additional repositories, several hundred more bibliographical entries, coverage of reorganization issues, four indexes, and a glossary.

Russian Teachers and Peasant Revolution Scott Joseph Seregny 1989 "As the first study in any language of the crucial social 'link' in rural Russia between broader society (obshchestvo) and the people (narod), Seregny's book will be read with great interest by all students or the late imperial period, Soviet and Western." —William G. Rosenberg "This book is a timely and worthy addition to the... body of work on the 'democratic intelligentsia' of 'third element' in prerevolutionary Russia." —The Russian Review "... compelling and moving." —History Today "... this substantial volume provides detailed evidence of the complexities and ambiguities inherent in the day-to-day zamstvo-teacher-peasant relationship in the period preceding the 1905

Revolution." —The Slavonic Review "... carefully researched and well documented..." —The Journal of Peasant Studies

Science, Women and Revolution in Russia Koblitz 2014-01-02 While the women's movement might seem like a relatively new concept, Russian women of the 1860s deserve to be acknowledged as individuals who changed the direction of science and opened the doors of higher education to women throughout Europe. The 1860's and 1870's witnessed a rise in women's consciousness and the beginnings of the Russian revolutionary movement that saw women pursue and receive doctorates in many areas of science. These same women went on to become some of the brightest in their fields. This book provides a look at Russian women scientists of the 1860's, their personal independence, and technical and literary achievements that made science the popular social movement of the time and changed the face of the Russian intellectual culture.

Valerii Pereleshin Olga Bakich 2015 Olga Bakich's biography of Valerii Pereleshin (1913-1992) follows the turbulent life and exquisite poetry of one of the most remarkable Russian ♦migr♦s of the twentieth century. Born in Irkutsk, Pereleshin lived for thirty years in China and for almost forty years in Brazil. Multilingual, he wrote poetry in Russian and in Portuguese and translated Chinese and Brazilian poetry into Russian and Russian and Chinese poetry into Portuguese. For many years he struggled to accept and express his own identity as a gay man within a frequently homophobic ♦migr♦ community. His poems addressed his three homelands, his religious struggles, and his loves. In Valerii Pereleshin: The Life of a Silkworm, Bakich delves deep into Pereleshin's poems and letters to tell the rich life story of this underappreciated writer.
