[A Biographical Dictionary of Women's Movements and Feminisms](#)

Francisca de Haan 2006-01-10 This Biographical Dictionary describes the lives, works and aspirations of more than 150 women and men who were active in, or part of, women's movements and feminisms in Central, Eastern and South Eastern Europe. Thus, it challenges the widely held belief that there was no historical feminism in this part of Europe. These innovative and often moving biographical portraits not only show that feminists existed here, but also that they were widespread and diverse, and included Romanian princesses, Serbian philosophers and peasants, Latvian and Slovakian novelists, Albanian teachers, Hungarian Christian social workers and activists of the Catholic women's movement, Austrian factory workers, Bulgarian feminist scientists and socialist feminists, Russian radicals, philanthropists, militant suffragists and Bolshevik activists, prominent writers and philosophers of the Ottoman era, as well as Turkish republican leftist political activists and nationalists, internationally recognized Greek feminist leaders, Estonian pharmacologists and science historians, Slovenian 'literary feminists,'

Czech avant-garde painters, Ukrainian feminist scholars, Polish and Czech Senate Members, and many more. Their stories together constitute a rich tapestry of feminist activity and redress a serious imbalance in the historiography of women's movements and feminisms.

Scholars in Exile Nadia Zavorotna 2020-03-28 In the interwar years, émigré scholars in Czechoslovakia provided continuity and a bridge for Ukrainian scholarship from its inception at the end of the nineteenth century to the development of Ukrainian studies in the twenty-first century. These scholars forged a legacy that spread beyond

Czechoslovakia. Without their work in the postwar era, the development of Ukrainian émigré scholarship would not have flourished. Narrated from a Ukrainian perspective, *Scholars in Exile* concentrates on the astounding efforts by Ukrainians to establish institutions of higher learning in the unique democratic spirit of Tomáš Garrigue Masaryk. The book also explores Ukrainian scholarly and professional societies, museum and archival collections, scholarly publishing, and little-known intellectual connections between Ukrainian émigré scholars and their colleagues in Czechoslovakia and various other European countries. *Scholars in Exile* brings to light an interesting facet of modern Ukrainian history, allowing for a better understanding of the general intellectual and institutional history of Ukraine.

Ethnologia Europaea 45:1 Regina F. Bendix 2015-06-30 This issue opens with Katarzyna Wolanik Boström and Magnus Öhlander's inquiry into mobile physicians and their pragmatic use of proto-ethnographic insights so as to facilitate their day to day work with culturally diverse patients. Gabriella Nilsson uncovers how school nurses, too, habitually draw on their knowledge of class and family background while implementing normative medical guidelines on childhood obesity. Maria Zackariasson seeks to show how members in a faith-based youth organization experience and handle the pull and push of faith and peer group sociability. Ewa Klekot examines different traces and registers of memorialization of recent Polish history in two districts of Warsaw. Disciplinary memory is augmented through Konrad J. Kuhn's analysis of Swiss scholars' participation in the Europeanization of *Volkskunde*. With Laura Hirvi's observations among young Finnish artists in Berlin, the issue concludes with another set of transnationally mobile actors.

Stanislavsky in Practice Vreneli Farber 2008 Stanislavsky in Practice focuses on the course of study pursued today by aspiring actors in Russia and on the philosophy that informs this curriculum. It draws on extensive observation during the academic year 2000-2001 of the actor training program of the St. Petersburg State Academy of Theatre Arts (SPGATI), one of the three most prestigious theatrical institutes in Russia, and on interviews of a wide array of individuals in the Academy. Although the years since 1991 have witnessed many changes in theater and in actor training - sources of funding, administration, choice of repertoire, new methodologies, etc. - there remains much continuity with the past. The core of this continuity is the Stanislavsky tradition, which nevertheless has been affected by the views of post-Soviet Russia. The developments in actor training from 1991 to 2001 reflect the challenges and problems faced by other institutions in the arts and sciences. In other words, the phenomenon of continuity and discontinuity with the past is characteristic of other institutions in Russia, cultural as well as scientific and educational.

Reforming the Russian Industrial Workplace Elena Shulzhenko 2017-04-21 Based on extensive original research, this book explores how far the Soviet pattern of industrial workplace organisation, characterised by a high level of management discretion, authoritarian control and the use of punitive methods on the shop-floor, has been replaced by internationally established practices, with a greater emphasis on a lean organisation and employee involvement in quality improvement. The

book explores how the market reforms of the 1990s raised companies' attention to product quality but did not lead to a change in the management methods, which only began with the increased internationalisation of the Russian economy in the 2000s. The book includes a rich in-depth study of multinational and domestic companies, and argues that a move from the Soviet pattern of workplace organisation to new practices is only likely to occur in companies with strong ties to international partners, who provide support for, and audit the implementation and upholding of, international management standards. The research shows that local companies not exposed to such international collaboration continue with the old methods.

Life Histories of Ethnos Theory in Russia and Beyond David G. Anderson 2019-02-25 The idea of ethnos came into being over a hundred years ago as a way of understanding the collective identities of people with a common language and shared traditions. In the twentieth century, the concept came to be associated with Soviet state-building, and it fell sharply out of favour. Yet outside the academy, ethnos-style arguments not only persist, but are a vibrant part of regional anthropological traditions. *Life Histories of Ethnos Theory in Russia and Beyond* makes a powerful argument for reconsidering the importance of ethnos in our understanding of ethnicity and national identity across Eurasia. The collection brings to life a rich archive of previously unpublished letters, fieldnotes, and photographic collections of the theory's early proponents.

Using contemporary fieldwork and case studies, the volume shows how the ideas of these ethnographers continue to impact and shape identities in various regional theatres from Ukraine to the Russian North to the Manchurian steppes of what is now China. Through writing a life history of these collectivist concepts, the contributors to this volume unveil a world where the assumptions of liberal individualism do not hold. In doing so, they demonstrate how notions of belonging are not fleeting but persistent, multi-generational, and bio-social. This collection is essential reading for anyone interested in Russian and Chinese area studies. It will also appeal to historians and students of anthropology and ethnography more generally.
